PROFILE

I am a passionate and dedicated UI/UX designer and web developer with over one year of experience in creating intuitive and user-friendly interfaces. I hold a BEng (Hons) in Software Engineering and am proficient in various technologies, including Bootstrap, C# .NET, and Python. Currently expanding my skill set in mobile application development through React Native. I am seeking a position in a dynamic software company where I can leverage my technical skills and creative abilities to develop innovative digital solutions.

WORK EXPERIENCE

Graphic & UI Designing

Freelance (Fiverr)   2023-2024

- Developed and implemented custom UI/UX designs, web applications, and branding materials for various clients.
- Collaborated with clients and developers to deliver high-quality, user-centered designs and graphics, improving user engagement and brand recognition.
- Designed and optimized websites, mobile interfaces, and marketing materials using tools like Adobe Illustrator, Photoshop, Bootstrap, HTML, CSS, and JavaScript, resulting in enhanced visual appeal and faster load times.
- Managed client projects from concept to completion, ensuring timely delivery of graphics and designs that improved productivity and met client expectations.

PROJECTS

Malcolm Lismore Photographer's Website - Build using HTML, CSS, JavaScript and PHP
2024

Developed a professional website for Malcolm Lismore, a photographer specializing in landscapes, wildlife, and events. The site features a portfolio showcasing his work, an inquiry form for potential clients, and a responsive design to ensure optimal viewing across devices.

EVC cloud-based video platform - UIUX   2024

Designed the 'E Video Player' interface for the EVC cloud-based video platform, focusing on blending creative elements with intuitive design. The project aimed to deliver a user-friendly and visually engaging experience, enhancing the overall usability of the platform

Quick Eats Food Delivery App - UIUX   2023

Quick Eats is a food ordering platform with a clean, intuitive design. It offers personalized recommendations, easy navigation, seamless payment, real-time order tracking, and customer reviews.
